EDUCATION

GEORGIA INSTITUTE OF TECHNOLOGY, College of Computing — **Atlanta, Georgia**
Bachelor of Science in Computer Science — *05/2028*
Denning Computing and Business Minor — *05/2027*
- Concentration: Modeling and Simulation and Information Internetworks — GPA: 4.0
- Steven A. Denning Technology and Management Program

PROJECTS

GEORGIA INSTITUTE OF TECHNOLOGY — **Atlanta, Georgia**
BizzIn – Hacklytics 2025 — *02/2025*
- Built ML-powered business location analysis tool in python (scikit-learn)
- Developed full-stack app with Next.js and MongoDB at Hacklytics 2025

SpendWise – CS2340 — *01/2025 – 05/2025*
- Developed full-stack budgeting app with Java and Android Studio using SOLID principles
- Integrated AI chatbot for context-aware financial recommendations

INDEPENDENT STUDY — **Atlanta, Georgia**
Oxide Engine (In Development) — *06/2026 – Present*
- Engineered high-performance backtesting engine in Rust with Python strategy layer via PyO3
- Designed data-agnostic simulation core supporting pluggable OHLCV feeds and slippage modeling

Achronia VTT (In Development) — *05/2026 – Present*
- Built cross-platform P2P virtual tabletop using Tauri, Rust, and React
- Implemented serverless collaborative sync via Yjs with a custom Steam P2P provider

Markov Chain Stock Predicting — *02/2024 – 05/2024*
- Built Markov Chain model using Nasdaq data to predict stock movement
- Implemented self-correcting calibration algorithm

EXPERIENCE

GEORGIA TECH FINANCIAL SERVICES INNOVATION LAB — **Atlanta, Georgia**
Student Researcher — *08/2026 – Present*
- Cleaned and labeled financial text datasets to support NLP model training
- Developed data generators for synthetic data creation for training foundational macroeconomic models
- Applied ML/NLP techniques to analyze sentiment and structure in financial filings

MANHATTAN ASSOCIATES — **Atlanta, Georgia**
Services Consulting Co-Op — *01/2026 – 08/2026*
- Configured warehouse management software for client needs
- Collaborated with R&D to implement code changes
- Wrote and maintained technical documentation for configuration specs

GEORGIA TECH TUTORING AND ACADEMIC SUPPORT — **Atlanta, Georgia**
PLUS Leader — *08/2025 – 12/2025*
- Collaborated with professors and class administrators to host review sessions for Discrete Mathematics
- Responded to students' academic needs via large-group tutoring

LEADERSHIP AND COMMUNITY ENGAGEMENT

GEORGIA INSTITUTE OF TECHNOLOGY — **Atlanta, Georgia**
Member and Developer / WebDev @ GT — *08/2024 – Present*
- Developed full-stack applications on small student-led developer teams
- Attended corporate-sponsored talks on emerging technologies and best technical practices

Technical Lead / Google Developer Group on Campus — *08/2024 – 05/2025*
- Led technical workshops and learning events for web and database development
- Leveraged Google's resources to enhance club operations

SKILLS/INTERESTS

Technical: C++, Rust, Python, C, C#, Java, Computer Architecture, SQL, MongoDB, .NET Web API, Flask, Next.js
Languages: English – native, French – basic
Interests: Volleyball, tennis, video games, strategic board games
